Date & Place: 17/10/2017 at 9.00am

Venue:-class room

No. of participants: 15 Students

**OBJECTIVE:**

- 1) To offering a fair level of protection to inventors/applicants from all backgrounds. providing a fair balance between the rights of inventors/applicants and third parties.
- 2) To identifying what the invention is about in terms of existing products and describing it in a way that meets the client's goals.

Modern College of Commerce and Computer Studies Yamunanagar, Nigdi had conducted Seminar on 'Conceptual issues in patenting of life forms

The Seminar was inaugurated by Prof. Prasanna Chavan, at 9: 00am. College welcome speech. The Key note Address was delivered by Asst. Prof. Mahesh Salvi on the topic **Conceptual issues in patenting of life forms**. Filing for a patent includes a stringent process in which the inventor would have to provide a detailed description of their idea. This description must explain why the idea is original and innovative – chronicling all the necessary facets of the invention that make it so. This process is called patent drafting.

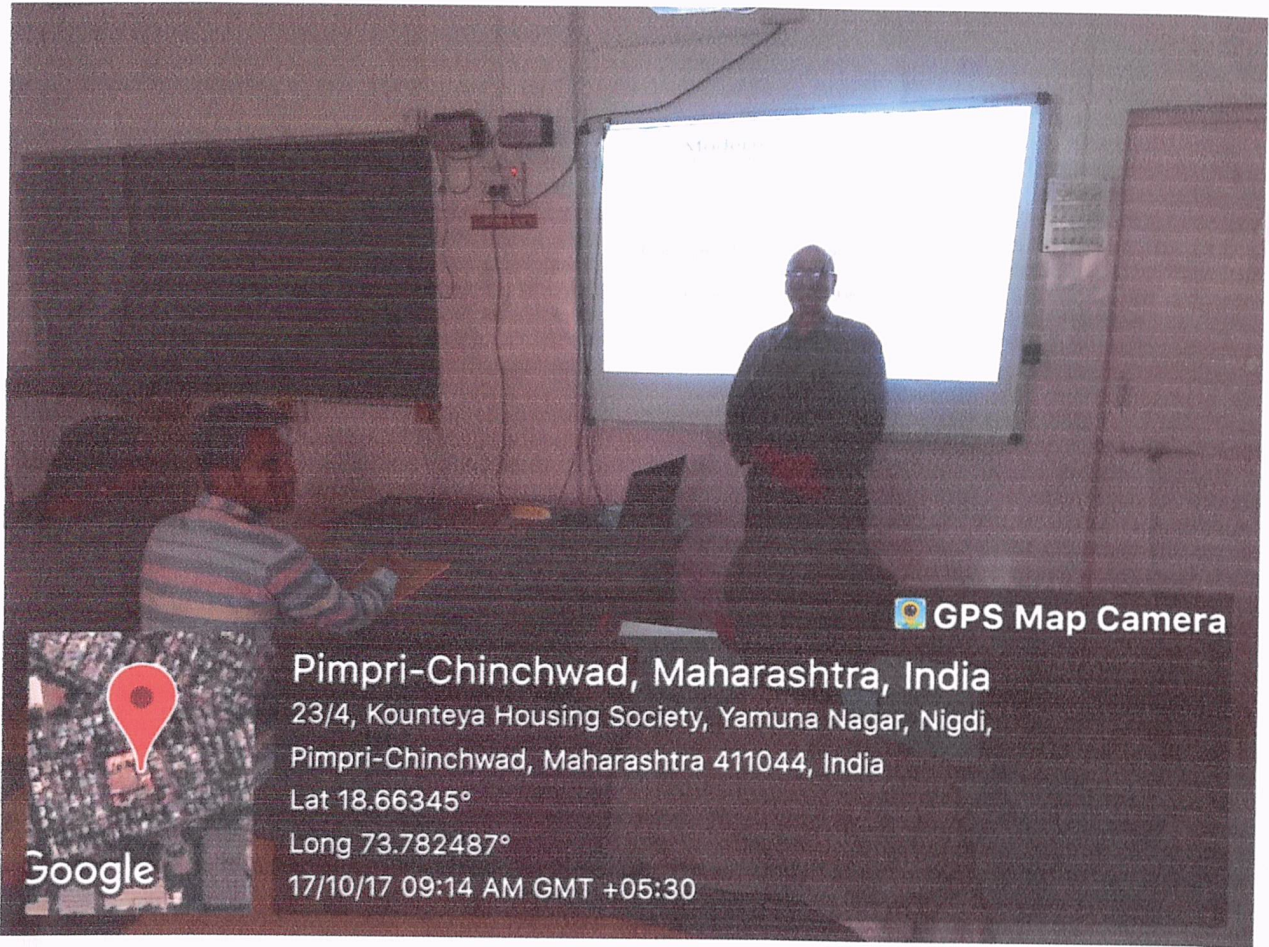

The session was concluded by the vote of thanks of Prof. Renuka Gaikwad (co Ordinator). All staff and students are present in Seminar.

**OBJECTIVE:**

- 1) The main objective of IPR is to create public awareness about the benefits of Intellectual property among all sections of society.
- 2). To stimulate the creation and growth of intellectual property undertaking relevant measures.

Modern College of Commerce and Computer Studies Yamunanagar, Nigdi had conducted Seminar on '**Indian scenario of Intellectual Property Right.**

The Seminar was inaugurated by **Prof. Prasana Chavan**, at 10: 00am. College welcome speech. The Key note Address was delivered by **Prin. Sadashiv Shirgave** the topic **Indian Scenario of Intellectual Property Right**. India's research and development has grown significantly in today's intellectual era. The presence of well-established state-of-the-art labs of both Indian and multinational corporations in the country has clearly demonstrated India's IP status in the world. The rise of the Indian economy is a clear result of the country's Intellectual Property (IP) influence. As a developing country, India has made significant strides in competing for Trade Related Intellectual Property Rights (TRIPS) agreements and compliance with US and European Intellectual Property Rights (IPR) structures. ### Event: WORKSHOP ON RESEARCH METHODOLOGY

Date & Place: 08/03/2018 at 9.30am

Venue: Class room

No. of participants: 30 Students

#### OBJECTIVE:

- 1) It should be empirically testable, whether it is right or wrong.
- 2) We have heard of many hypotheses which have led to great inventions in science. Assumptions that are made on the basis of some evidence are known as hypotheses.

Modern College of Commerce and Computer Studies Yamunanagar, Nigdi had conducted Workshop on 'Characteristics of Hypothesis'.

The workshop was inaugurated by **Prof. Prasad Ghodke**, at 9.30 am. The Key note Address was delivered by **Prof. Prasanna Chavan** on the topic 'Characteristics of Hypothesis' he discussed matter with the hypothesis should be clear and precise to consider it to be reliable. If the hypothesis is a relational hypothesis, then it should be stating the relationship between variables. The hypothesis must be specific and should have scope for conducting more tests. The way of explanation of the hypothesis must be very simple and it should also be understood that the simplicity of the hypothesis is not related to its significance. The session was concluded by the vote of thanks of **Prof. Rohit Waghmare** (co Ordinator). All staff and students are present.

**OBJECTIVE:**

- 1) A patent is a helpful mechanism in rewarding new inventions and creativity.
- 2) software patents are often misunderstood by both technical and legal professionals.

Modern College of Commerce And Computer Studies Yamunanagar, Nigdi. Had conducted Workshop on '**Patenting software related inventions: trends in UK and US.**

The workshop was inaugurated by **Prof.Ghodke**, at 10 am. College sir welcome speech. The Key note Address was delivered by **Prof.Prasanna Chavan** on the topic **Patenting software related inventions: trends in UK and US.** The patent refers to the privilege bestowed upon someone who has provided a new and helpful article, an improvement to an existing article, or a novel method of producing an article. For a brief time, the exclusive right to manufacture the new goods or invented procedure is granted. The Patentee who is the patent owner has the same rights as any other movable property when it comes to dealing with his "patent." That is, he can sell all or part of his property, issue others licenses to use the patented property, assign it to others. The session was concluded by the vote of thanks of **Prof. Ravikiran kakade** (co ordinator). All staff are present.

This research methods guide will help you choose a methodology and launch into your research project. The focus of this guide, however, is on two of the most popular methods: **survey** and **interviews**.

It depends on your research goal. It depends on what subjects (and who) you want to study. Let's say you are interested in studying what makes people happy, or why some students are more conscious about recycling on campus. To answer these questions, you need to make a decision about how to collect your data. Most frequently used methods include:

**OBJECTIVE:**

- 1) A report contains specific information and evidence which is presented, analysed, and applied to the concerned problem.
- 2) The problem is figured out by the person writing the report and they also find out its reason.

Modern College of Commerce and Computer Studies Yamunanagar, Nigdi had conducted Seminar on **Research Report**.

The Seminar was inaugurated by **Prof. Ravikiran Kakade**, at 9 am. The Key note address was delivered by **Prof. Vilas Bade** on the topic **Research Report**. Reports are usually spread across a vast horizon of topics but are focused on communicating information about a particular topic and a niche target market. The primary motive of research reports is to convey integral details about a study for marketers to consider while designing new strategies. The rigorous reduction of the inquiry to a narrow question with a quantifiable answer. The most significant preliminary phase of research writing is that of effective problem definition. This process is one of identifying an interesting question and narrowing the research inquiry to a manageable size. The session was concluded by the vote of thanks of **Prof. Reshma Tamboli** (co coordinator). All staff and students are present.

**Event: WORKSHOP ON RESEARCH METHODOLOGY**

Date & Place: 25/11/2019 at 11.30am

Venue: -seminar hall

No. of participants: 35 Students

**OBJECTIVE:**

- 1) Research objectives describe what your research is trying to achieve and explain why you are pursuing it.
- 2) A distinction is often made between research objectives and research aims.
- 3) A research aim typically refers to a broad statement indicating the general purpose of your research project. It should appear at the end of your problem statement, before your research objectives.

Modern College of Commerce And Computer Studies Yamunanagar, Nigdi. Had conducted Workshop on 'Research Paper'

The workshop was inaugurated by **Prof. Prasanna Chavan**, at 11.30 am. College Sir's Welcome speech the Key note Address was delivered by **Prof. Manoj Sathe** on the topic 'Research Paper'. His presentation began with explaining 'what is Research Paper'. He discussed about a research paper is a piece of academic writing that provides analysis, interpretation, and argument based on in-depth independent research. Research papers are similar to academic essays, but they are usually longer and more detailed assignments, designed to assess not only your writing skills but also your skills in scholarly research. The session was concluded by the vote of thanks of **Prof. Ravikiran Kakade** (co-ordinator). All staff and students are attending the workshop.

The Seminar was inaugurated by **Prin. Sadashiv Shirgave**, at 10:30 am. The Key note Address was delivered by **Prof. Ravikiran Kakade**. on the topic **Judgement Writing, Thesis and Plagiarism**. A Judgment may be defined as a reasoned pronouncement by a judge on a disputed legal question which has been argued before him. It is a literary composition, but a composition subject to certain conventions. It possesses its own characteristics and its own standards of merit. The art of composing judgments is not taught; it is acquired by practice and by study of the models provided in the innumerable volumes of the law reports in which are recorded the achievements of past masters of the art. **Plagiarism** is the practice of taking someone else's work or ideas and passing them off as one's own. **OBJECTIVE:**

- 1) To collect information relevant to a specific research project in one place, so that it can be found and accessed again quickly.
- 2) To study search the usage of the computer and the internet habits of the students in the secondary education, to examine the results which are obtained, to take necessary precautions.

Modern College of Commerce and Computer Studies Yamunanagar, Nigdi. Had conducted Seminar on **Computer and Internet: It's Role in Research**

The Seminar was inaugurated by **Prof. Prasad Ghodke**, at 11:45 am. The Key note Address was delivered by **Prof. Prasanna Chavan** on the topic **Computer and internet: It's Role in Research**. The Internet is a useful tool for research because it gives access to a wide range of material, makes it easier for researchers to communicate and work together, and makes it possible to employ online research tools. Besides its capacity to process large amounts of data, it also analyses data with the help of a number of statistical procedures. Computers carry out processing and analysis of data flawlessly and with a very high speed. The statistical analysis that took months earlier takes now a few seconds or few minutes.

The session was concluded by the vote of thanks of **Prof. Reshma Tamboli** (co Ordinator). All staff and students are present in Seminar .

**Event: SEMINAR ON INTELLECTUAL PROPERTY RIGHTS.**

Date & Place: 20/9/2019 at 11.15am

Venue: Seminar Hall

No. of participants: 30 Students

**OBJECTIVE:**

- 1) To give the creator of an invention the exclusive legal right to market, sell, manufacture, and profit from that invention.
- 2) To encourage the creativity of the human mind for the benefit of all and to ensure that the benefits arising from exploiting a creation benefit the creator.

Modern College of Commerce and Computer Studies Yamunanagar, Nigdi. Had conducted Seminar on **Conceptual issues in patenting of life forms**

The Seminar was inaugurated by **Prof. Reshma Tamboli** at 11:15 am. The Key note Address was delivered by **Prof. Manoj Sathe**, on the topic **Conceptual issues in patenting of life forms**. Patenting of life forms as a critical and crucial issue is due to its commercial potential from usage of biotechnology. The subject matter in biotechnology patenting is different than that of patenting in machinery which are comparatively more traditional when compared to likes of plants, human cells, animals, genes etc. This paper will be tackling the issues of following standards in context of TRIPS agreement regarding the patenting of life form.

The session was concluded by the vote of thanks of **Prof. Reshma Tamboli** (co-ordinator). All staff and students are present in Seminar.

**OBJECTIVE:**

- 1) To offering a fair level of protection to inventors/applicants from all backgrounds. providing a fair balance between the rights of inventors/applicants and third parties.
- 2) To identifying what the invention is about in terms of existing products and describing it in a way that meets the client's goals.

Modern College of Commerce and Computer Studies Yamunanagar, Nigdi. Had conducted Seminar on **Conceptual issues in patenting of life forms**

The Seminar was inaugurated by **Prof. Prasana Chavan** at 10:00am. The Key note Address was delivered by **Prof. Ravikiran Kakade** on the topic **Conceptual issues in patenting of life forms**. Filing for a patent includes a stringent process in which the inventor would have to provide a detailed description of their idea. This description must explain why the idea is original and innovative – chronicling all the necessary facets of the invention that make it so. This process is called patent drafting. The session was concluded by the vote of thanks of **Prof. Renuka Gaikwad** (Co Ordinator). All staff and students are present in Seminar.

**OBJECTIVES :**

- To understand the conceptual basics of Web Design.
- To discuss different ways of being protected of Web Design.

The Seminar was inaugurated by **Associate Prof. Dr. Manoj Sathe**, at 11.25am. The keynote address was delivered by **Asst. Prof. Mahesh Salvi** on the topic '**Web Design**'. Different kinds of ideas have different ways of being protected, depending on the way that the idea is expressed. This output and its protection are known as intellectual property. When it comes to intellectual property in web development, there are a number of rights that exist within your website. For example, any branding or logos used are highly likely to be protected by the registered trademark rights. It's easy to believe that once you've purchased your domain name, produced all of your website content, and published your website only, then the rights solely belong to you. The session was concluded by the vote of thanks of **Asst Prof. Ravikiran Kakade** (co-ordinator). All the staff members attended the seminar.

### OBJECTIVE:

- To understand the purpose of hypothesis testing
- To make an inference about the population of interest on the basis of a random sample taken from that population.

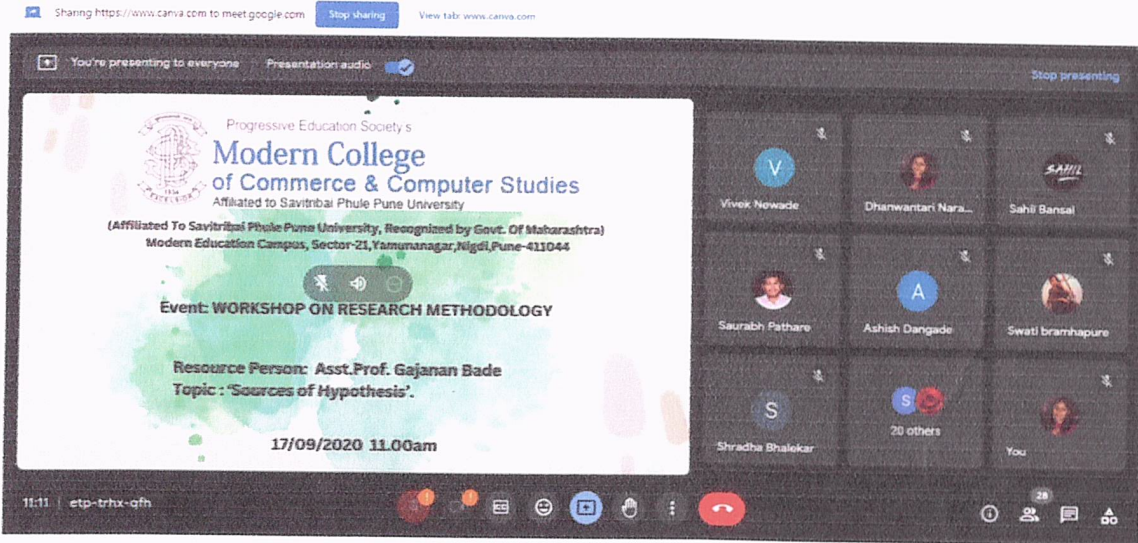

The workshop was inaugurated by **Asst. Prof. Renuka Gaikwad**, at 11.00am. The keynote address was delivered by **Asst. Prof. Gajanan Bade** on the topic 'Sources of Hypothesis'. His presentation began with explaining 'What is Hypothesis'. He discussed sources of hypotheses as an assumption that is made based on some evidence. This is the initial point of any investigation that translates the research questions into predictions. It includes components like variables, population and the relation between the variables. A research hypothesis is a hypothesis that is used to test the relationship between two or more variables. The session was concluded by the vote of thanks of **Asst. Prof. Renuka Gaikwad** (coordinator). All staff members attended the workshop.

### Seminar on Intellectual Property Rights

Date & Place: 25/04/2022 at 11:30 am and SEMINAR HALL

No. of participants: 40 Students

#### OBJECTIVE:-

- 1) To modernize and strengthen IP administration.
- 2) To catalyze commercialization of IP rights.

The seminar was inaugurated by **Asst. Prof. Ravikiran Kakade**, at 11:30am. Welcome Speech and the keynote address was delivered by **Asst. Prof. Ashwini Kende** on the topic **Conceptual issues in patenting of life forms**. Patenting of life forms as a critical and crucial issue is due to its commercial potential from usage of biotechnology. The subject matter in biotechnology patenting is different from that of patenting in machinery which are comparatively more traditional when compared to the likes of plants, human cells, animals, genes etc. This paper will be tackling the issues of following standards in context of TRIPS agreement regarding the patenting of life forms. All staff members and students were present for the seminar.

- 2) To test and verify old facts.

The workshop was inaugurated by **Asst. Prof. Shivkant Pupulwad** at 11:30 a.m. Welcome speech and the keynote address was delivered by **Asst. Prof. Renuka Gaikwad** on the topic **Writing an Article Essay, Research Paper, Research Project Legislation Drafting**. Research in legislative drafting in Indonesia is compulsory. Output of the research is academic paper (Naskah Akademik) which supports rationale needed for legislative drafting. This academic paper also provides logical and objective argumentation on the significance of legislation. Even though research in legislative drafting has become compulsory since 2011, academics and practitioners found several weaknesses in research methodology. This article discusses two major issues related to research methodology in legislative drafting (developing the academic analysis). The first is dynamics of legislative policy developments related to research methodology for developing academic papers for legislative drafting. The second is weaknesses of legislative policy developments related to research methodology for legislative drafting. The session was concluded with a vote of thanks delivered by **Asst. Prof. Dhanwantari Narawade** (coordinator). All the staff members attended the workshop.

## Notice

The Modern College of Commerce and Computer Studies is willing to organise a Research Methodology workshop on the topic of **Source of Hypothesis, characteristics of Hypothesis** for the faculty and students. The core objective of the workshop is to understand the purpose of hypothesis testing and to gain knowledge regarding the sources of hypothesis. The workshop is scheduled virtually on **09/12/2021 at 10.00 a.m.** on Google meet.

All the interested participants are cordially invited for the workshop.

**OBJECTIVE:-**

- 1) To understand the purpose of hypothesis testing.
- 2) To gain knowledge regarding the sources of hypothesis.

The workshop was inaugurated by **Asst. Prof. Ravikiran Kakade**, at 10 am. Welcome speech and the keynote address was delivered by **Asst. Prof. Ghodke sir** on the topic **Source of Hypothesis, characteristics of Hypothesis**. Hypothesis is an assumption that is made based on some evidence. This is the initial point of any investigation that translates the research questions into predictions. It includes components like variables, population and the relation between the variables. A research hypothesis is a hypothesis that is used to test the relationship between two or more variables. The session was concluded by the vote of thanks delivered by **Prof. Ravikiran Kakade** (coordinator). All the staff members attended the workshop.

The workshop was inaugurated by **Asst. Prof. Reshma Tamboli**, at 09:30 a.m. Welcome speech and the key note address was delivered by Principal **Prof. Dr. Sadashiv Siragave** on the topic **Research Quantitative Vs. Qualitative Vs. Research Conceptual Vs. Empirical Research**. The main difference between conceptual and empirical research is that conceptual research involves abstract ideas and concepts, whereas empirical research involves research based on observation, experiments and verifiable evidence. Conceptual research and empirical research are two ways of doing scientific research. These are two opposing types of research frameworks since conceptual research doesn't involve any experiments as empirical research does. The session was concluded by the vote of thanks delivered by **Asst. Prof. Prasad Ghodke** (coordinator). All the staff members attended the workshop.

The role of computers becomes more important when the research is on a large sample. Data can be stored in computers for immediate use or can be stored in auxiliary memories like floppy discs, compact discs, universal serial buses (pen drives) or memory cards, so that the same can be retrieved later. The computers assist the researcher throughout different phases of the research process. The session was concluded by the vote of thanks delivered by **Asst. Prof. Prasad Ghodke (coordinator)**.
