Introduction: We as health conscious persons should feel responsible for reducing the transmission of influenza. It's not only our obligation to fight with the new variant of swine Flu, but also our deep responsibility to reduce its spreading in our society. The most effective way to prevent the disease is **vaccination**. Safe and effective vaccines are available and have been used for more than 60 years. Immunity from vaccination wanes over time so annual vaccination is recommended to protect against influenza. Injected inactivated influenza vaccines are most commonly used throughout the world.

Objective of the Event:

- To develop awareness among the students.
- To involve students in spreading awareness to their near & dear ones.
- To reduce swine flu by following all norms of government.

Modern College Of Commerce & Computer Studies conducted a swine flu awareness program on 1st March 2019. It's an awareness program for student health as well as staff consciousness. Many students had participated in this drive and understood their responsibility to reduce this influenza. In the morning we started this program by walking from our college to Nigid Chawk. Prof Manoj Sathe coordinated the students about this program. Both students and staff played a vital role for spreading awareness among the public. We got to know the reason for this influenza by this program.

Total Number of Participants: 30

Outcomes: There is no right or wrong way to meditate but it's important to find a correct practice that helps you to meet your needs and overcome issues and manage stress.
