**Date:** 16/07/2018

**Time:** 09:30 am

**Venue:** College Campus

**Introduction:** Trees are of invaluable importance to our environment and to human well being. And also important for the global environment and the health of the species that live there, and they need our unconditional care and protection.

**Objective of the Event:**

- Trees clean the air
- Trees cool our homes, streets, and cities.
- help minimize climate change effects.
- Planting trees can increase the resilience of ecosystems

The event "Activity of Tree Distribution to People" was conducted by MCCCCS college. This program was conducted 16<sup>th</sup> July 2018. MCCCCS initiative to promote, monitor and operate Activity of Tree Distribution to People. This created environmental awareness among the peoples, students and future generations. College student volunteers propagated a tree distribution step towards an environmental purpose. The purpose of observing the said day is to make people aware of the importance of planting trees and to assist them in doing so. Planting saplings to invest in the future is a common practice on tree plantation days.

**Total Number of Participants:** 15

**Outcomes:** To make our world greener and better, we must pay more attention to tree planting in the future. Individual contributions should be made first. We should also put a stop to tree cutting and remember that without trees, there will be no life. Everyone should be aware of the importance of tree planting and should motivate and encourage others to do the same.

**Objective of the Event:**

- Trees clean the air
- Trees cool our homes, streets, and cities.
- help minimize climate change effects.
- Planting trees can increase the resilience of ecosystems

The event "Activity of Tree Distribution to People" was conducted by MCCCCS college. This program was conducted 12<sup>th</sup> august 2019. The tree distribution program started around 10:30 a.m., just after the morning assembly. The students of different classes were given some saplings to distribute to people to plant around the college campus, students in the local areas around the school. After distributing saplings, students gave a speech on why planting trees can prove to be beneficial for the environment and they gave the information why it's important that they plant and save trees. The Principal ended the event with a vote of thanks and appreciated the students for their presence.

**Total Number of Participants:** 15

**Outcomes:** This activity teaches people planting and protecting trees particularly in cities where the bulk of people live are effective approaches to contribute in accomplishing these goals. Trees can decrease urban temperatures while cities are getting warmer while they provide the animals with home and food. So that college students distributed trees to people and created social awareness..

**Introduction:** Trees are of invaluable importance to our environment and to human well being. And also important for the global environment and the health of the species that live there, and they need our unconditional care and protection.

They give us clean water to drink, air to breathe, shade and food to humans, animals and plants. They provide habitats for numerous species of fauna and flora, firewood for cooking and heat, materials for buildings and places of spiritual, cultural and recreational importance.

**Objective of the Event:**

- Trees clean the air
- Trees cool our homes, streets, and cities.
- help minimize climate change effects.
- Planting trees can increase the resilience of ecosystems

The event "Activity of **Tree Distribution to People**" was conducted by MCCC college. This program was conducted on 21st July 2021. In a pandemic situation, the college took this activity. Some students distributed saplings to neighbours and near their home area while taking precautions and wearing masks. During this activity students told people that Investing in trees will result in sustainable cities with happier and healthier people. In order to receive the benefits that trees provide, we all need to do plantations.

**Total Number of Participants:** 15

**Outcomes:** If we want to have the benefits of trees in the future, we must think of our urban forests as an investment. Like any investment, if trees are not cared for, they depreciate in value and can become a liability. Through planting and care, however, urban forests can have compounding benefits, trickling through every layer of society, leading to a better world
