A person who possesses the aptitude and motivation to launch, manage, and be successful in a startup enterprise, coupled with the risk necessary to do so, is referred to as an entrepreneur. The market is opened up to new ideas by entrepreneurs, who are frequently credited as innovators or sources of fresh concepts. As the taste and preference, need & wants, attitude & temperament of buyers are changing in day to day life so we need to change our business styles as according to the circumstances.

Objectives:

- To make students self-reliant.
- Change the mind set of students to become entrepreneur rather than job seeker.
- This entrepreneur day will provide a lot of experience to the students.
- It provides a practical knowledge to students.

The Modern College of Commerce & Computer Studies hosted an Entrepreneurship Day on their campus on March 6, 2020. Many students had received instructions to set up your own stall and market your goods in a new method. Many students had set up their own shops inside the campus. This day's major goal was to encourage student entrepreneurship and develop their sense of independence. It is also considered to be experiential learning. Students who took part in this activity are advised to tell the faculty members, how much profit they earned. Prof. Prasanna Chavan sir started the function. By taking part in this day, the children learned a lot and had fun.

Outcomes:

- Students were happy and promised to do some innovative work in near future.
- Students got some experience by this day.
- By experiencing this day, students came to know, how to manage a business perfectly.
