**Event: Swine Flu Awareness Program**

**Date:** 01/03/2019

**Time:** 9:00 am

**Introduction:** We as health conscious persons should feel responsible for reducing the transmission of influenza. It's not only our obligation to fight with the new variant of swine Flu, but also our deep responsibility to reduce its spreading in our society. The most effective way to prevent the disease is **vaccination**. Safe and effective vaccines are available and have been used for more than 60 years. Immunity from vaccination wanes over time so annual vaccination is recommended to protect against influenza. Injected inactivated influenza vaccines are most commonly used throughout the world.

**Objective of the Event:**

- To develop awareness among the students.
- To involve students in spreading awareness to their near & dear ones.
- To reduce swine flu by following all norms of government.

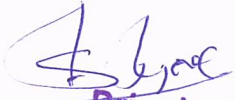

Modern College Of Commerce & Computer Studies conducted a swine flu awareness program on 1st March 2019. It's an awareness program for student health as well as staff consciousness. Many students had participated in this drive and understood their responsibility to reduce this influenza. In the morning we started this program by walking from our college to Nigdi Chawk. Prof Manoj Sathe coordinated the students about this program. Both students and staff played a vital role for spreading awareness among the public. We got to know the reason for this influenza by this program.

**Total Number of Participants:** 30

**Outcomes:** There is no right or wrong way to meditate but it's important to find a correct practice that helps you to meet your needs and overcome issues and manage stress.

**Event: Life skills- Trekking and Plantation**

**Date:** 12<sup>th</sup> February 2019

**Time:** 11:30 am

**Place:** VISAPUR FORT

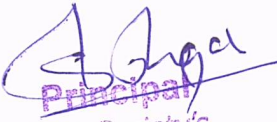

**Introduction:** Trees play a vital role in the Earth's ecosystem, serving as the foundation for a healthy and balanced environment. Tree Plantation drives combat many environmental issues like deforestation, erosion of soil, desertification in semi-arid areas, global warming and hence enhancing the beauty and balance of the environment. Trees absorb harmful gases and emit oxygen resulting in an increase in oxygen supply.

**Objective of the Event:**

- Trees are the basis of sustaining life on earth.
- Trees absorb carbon dioxide and release oxygen by Photosynthesis.
- They also help in reducing soil erosion by binding the soil to their roots.
- Trees absorb carbon from the atmosphere and store it in their wood and bark, thus slowing the rate of global warming.

Modern College Of Commerce and Computer Studies, Yamunanagar, Nigdi organised a Trekking and Tree plantation program at **VISAPUR FORT** and students distributed plants to nearest farmers and also gave the information about conservation. Asst. Prof. Shivakant pupalwad and 50 students participated in a trek and tree plantation.

It is natural to have thoughts during meditation. After a minute or so, in the same natural way that thoughts come, and without moving your tongue or lips, quietly inside start saying your mantra. Slowly repeat your mantra until you are done meditating. When thoughts come, gently return to saying your mantra. When you finish meditating, lay down and rest for 4-5 minutes.

Women's safety is our top priority and with this self-defence programme, we hope to encourage women to enroll in such training modules to protect themselves from any kind of assault or threat. The college establishes platforms where women can learn how to defend themselves from self defence experts. Furthermore, it is critical to create a safer environment for women in order to ensure the safety and integrity of the country's female workforce, and this is a small step in the right direction. We hope this pilot is a successful one and we are able to take these sessions to other ministries, departments, schools and organisations in a more structured and outcome based workshop.

The college conducted a Women's grievance & Self defence program aimed at creating awareness among girls about self defence techniques for girls. To teach women the skills they need to prevent and respond to violence, around 150 girls students were present for the program. The guest demonstrated defence techniques for girls with their participation. Also told to take care of their physical fitness by consuming nutritious food & cultivating healthy habits. The college principal Dr. Sadashiv Shirgave appreciated the program by their words. Asst. Prof. Yugandhara Patil mam given vote of thanks

**Objective of the Event:**

The workshop aimed to make women mindful of their security and instill confidence in them to deal with any unforeseen situations.

**Total Number of Participants: 58**
